The political campaign is as earnest as almost any during the war; both parties have been hope ful of ancess, and both have used every effort to altain it. But, "dead in earnest" as men have been, there has been a good deal of fun during the casses; and the struggle has been uncommonly rich in repurse, some good, some bad, and the more indifferent. We have collected some of these political estruys, and present them below.

The Command for Withdrawst.

The great organ of the Democracy, the New York World, follows up its first remarkable article hintley that the only saluation for the party lay in a change of candidates, with another which rather broader terms demands that Seymour and Bluir get out of the way at once. This sril cle starts out with the highly ornate and typical style which characterized the other. We quote "Whene Airs strives aboue rock's was weight to throw," and, instead of hurling it the thirty feet intervening between him and the mark, the too great weight of the musele causes it to fall short by a few inches, our admiration of the nighty feat increases the regret that it was not quite successful. But if this is mere trial, preliminary to the field throw, our probe in his prodigious arrength inspires the who that it should not a second time be expended in vain. If the armor of the hero had slightly impeded the freedom of his motions, let him strip away the incumbrance, if the weight is a few connece, or a few pounds too too his strength, let a stone hammer "e applied and strike off into superdinous framments." I tan elephant is to pass a river on lee not quiet heavy enough to bear him, he had better losse a tusk than be drowned in the stream.

We feel like a person who, in a lottery, has draw the next to the winning number, or the owner of a horse that felied to win the race by had a neck in consequence of having alightly too heavy a rider. The vexation of defeat is ever so keeply felt as when ancees was just while graps."

The elephant climile is not altogether happy. It suggests the remark that as wong of a tusk is cle starm out with the highly ornate and typical style which characterized the other. We quote

Letter from Washington

Special Correspondence of the Morning Herald. Washington, D. C., Oct. 14, 1868. After all that hus been said about the cole rated "Jaw order," the public will be surprised to learn that General Grant never issued it. I have just seen a latter from Captain DuBois, of he Third United States Cavalry, now stationed at Sante Pe. THE BUNIS WELL

This splendid well, which is located on the Gulid & Wright tract in the Pleasantville disnothing and the greater part of the Erie line has trict, is at the highest point of land in Venange county.
